PROFESSIONAL SERVICE

- ***Engagement with Government and Civil Society***
 - 2023-ongoing: Presentations to government stakeholders of the final results of the Land Restitution Evaluation Study (LRES) impact evaluation.
 - 2017-2023: LRES Steering Committee (SC). I performed a standing reporting obligation to the SC. My role as Lead-PI of LRES also included building and maintaining government-wide support for the overall independence and scholarly integrity of LRES through formal and informal engagements with the SC constituent member organisations: the International Initiative for Impact Evaluation (3ie), National Treasury (NT), The Presidency, the Commission for the Restitution of Land Rights (CRLR) and the Department of Agriculture, Land Reform and Rural Development (DALRRD).
 - 2022: Engagements with various restitution claimant communities. As part of my role as Lead-PI, I managed relationships with the trustees of several Communal Property Associations representing high profile land claims in Cape Town.
 - June 2020: Produced the documentary film “An Indispensable Redress” which situates the legacy of forced removals within the present moment by exploring how intergenerational trauma and psychological well being is linked to apartheid spatial planning and community distress. It documents the brutality of forced removals, the legislative response by the newly elected ANC government in 1994, and the launch of LRES.
 - Feb 2019: Participated in stakeholder engagements of the Presidential Advisory Panel on Land Reform and Agriculture (rural stream), Pretoria.
 - Jan 2019: Led stakeholder engagements with the Regional Land Claims Commissioner over the objectives and scope of LRES, Cape Town.

- Dec 2018: Participated in stakeholder engagements of the Presidential Advisory Panel on Land Reform and Agriculture, Pretoria
- July 2018: Participated in the Sector Consultative Forum policy dialogue between the CRLR and major private sector stakeholders, Kimberly.
- June 2018: Presented a report to the full senior leadership of the CRLR (Deputy Land Claims Commissioner and Chief Directors of the Regional Land Claims Commission) on LRES, Johannesburg.
- 2015: Presented the results of the impact evaluation work that I lead on the Land Redistribution for Agricultural Development (LRAD) Programme to a full meeting of the Chief Directors (CDs), Deputy Directors General (DDGs) and Director General (DG) of the DRDLR, at the invitation of the National Treasury.
- 2014-2016: Lead Principal-Investigator, Impact Evaluation Design of South Africa's Land Restitution Programme. In this role I was tasked to lead a team of experts in developing an evaluation design of the South African Land Restitution Programme. I worked with senior officials (CDs and DDGs) of the Department of Planning Monitoring and Evaluation (DPME) of The Presidency, NT, the DRDLR and the CRLR, as well as 3ie, to ensure that the study design was implementable with broad buy-in from Government partners. As part of this effort, I coordinated a government-wide inception workshop of the study involving all senior stakeholders, including the Chief Land Claims Commissioner.
- 2014: I made inputs on the uses of behavioural economics methodologies for public policy formulation at the invitation of the Chief Directorate: Policy and Strategy in the Department of the Premier, Western Cape Government.
- 2013-: I coordinated frequent stakeholder dialogues of *Activate Change Drivers* which is a youth leadership programme targeted to 20-30 year old community organisers, volunteers and youth leaders.
- 2012: I served in an advisory capacity to the *Siyashesha Youth Leadership Incubator* and the DG Murray Trust to develop a framework to measure the impacts of its programmes through the use of insights from behavioural economics
- 2006/07: I served as the Lead Principal-Investigator for the evaluation of the South African Land Redistribution Programme. As the Lead PI, I lead a process of stakeholder engagement between the Department of Land Affairs, World Bank and other stakeholders that culminated in the economic and statistical impact evaluation of several key land reform programmes.
- 2005: I served as a member of the steering committee that was tasked with providing oversight for the first Microeconomic Development Strategy undertaken by the Western Cape Provincial Government.
- 2001: I co-convened a workshop on applying insights from the study of poverty traps as part of the *Goedgedagt Forum for Social Reflection*.
